

TURNERS AUCTIONS

“ As one of New Zealand’s largest used vehicle sellers, Turners Auctions has a significant requirement for security at our largest Auckland site where hundreds of cars are stored. Our security needs are complex as we require not only night watch but also a presence during our preauction viewing session and actual auction days when there can be hundreds of people on-site. Matrix Security has been a very reliable and easy-to-deal with security supplier, expertly managing the security of our offices, auction floor, vehicle storage areas and even the odd \$250,000 Ferrari ”

Bevan Dunn, Operations Manager,
Turners Auctions
